MIGUEL GALINDO

miguelgalindo1214@gmail.com | (347) 937-4065 | www.linkedin.com/in/miguelgg

I am a dedicated and detail-oriented software developer skilled in JavaScript, Python, PHP, Docker, and SQL. My values center around continuous learning and adaptability, driving my passion for innovation in the ever-evolving technology field. Leveraging my strengths in meticulous code reviews and testing, I am poised to contribute effectively to organizational goals and propel projects toward success.

EDUCATION
College of Staten Island, Staten Island, NY
B.S., Computer Science

Skills
- Object-oriented programming, PHP development, Backend development, Docker, Composer, MySQL, Magento, React, HTML, CSS, JavaScript, Git CLI, Linux, Python, SQL, Code reviews, Testing, Debugging, Bug fixes, Feature enhancements, Deployment processes, Logging capabilities, Troubleshooting, Performance optimization
- **Personal Interests:** Mobile App Development, Video Game development, artificial intelligence (machine learning)

RIGHTPOINT, New York, NY   Feb 2022 – March 2023
Software Developer/Associate Backend Developer
- Successfully developed PHP backend solutions for 10+ high-volume web-based PHP applications, leveraging technologies such as Docker, Composer, MySQL, and Magento
- Implemented new custom themes and Magento extensions
- Collaborated closely with cross-functional teams to conduct thorough code reviews, extensive testing, and meticulous debugging, resulting in code of superior quality, efficiency, and reusability
- Consistently achieved high productivity levels, completing 100% of daily tasks, including bug fixes and feature enhancements
- Leveraged Docker and Composer to optimize the development and deployment processes for clients, ensuring seamless consistency and portability across various environments
- Led comprehensive Magento version upgrade initiatives for a diverse client base, successfully managing and executing the seamless transition to new Magento versions
- Utilized version control systems (e.g., Git CLI) for code management, collaboration, and deployment processes
- Monitored Magento's logging capabilities, including System, Exception, Debug, and Security logs, to troubleshoot and diagnose issues, ensuring optimal performance and security of the Magento application

ONLINE TECHNOLOGY INTEGRATORS, New York, NY   May 2018 – May 2021
Network Administrator/Computer Support Specialist
- Managed and ensured the daily security, software, and databases for a diverse clientele of over 300 clients, encompassing BDR (Backup Data Recovery), Cloud Backup, and Complete DLP (Data Loss Prevention) solutions, supporting server capacities ranging from 2TB to 8TB of memory
- Pioneered a workflow enhancement initiative by creating an innovative client catalog, subsequently adopted by the team. This initiative resulted in a remarkable 20% boost in productivity and a monthly cost reduction of $4,000, as assessed through our internal ticketing system
- Played an integral role in provisioning servers for new clients, with a track record of efficiently completing server builds within an average timeframe of two weeks, ensuring rapid deployment and operational readiness
- Demonstrated exceptional technical acumen by expertly handling an average workload of 20+ technical and mission-critical support inquiries, consistently delivering timely solutions, and bolstering overall client satisfaction

Certificates
Zero To Mastery Academy, New York   March 2024 - April 2024
- Completed comprehensive online course by Zero to Mastery covering advanced topics in React development, including Redux state management, React Hooks, and GraphQL API integration

AlgoExpert FrontendExpert Certificate, New York   January 2024 - March 2024
- Earned certification from AlgoExpert for completing the FrontendExpert course. Acquired advanced skills in frontend development, including JavaScript, React, HTML, CSS, and responsive design principles. Developed proficiency in building interactive and responsive web applications through hands-on projects and coding challenges.
